(S) user is able to validate pipeline listing
page when there is no pipeline created

(F) Creation and Field level validation of
pipelines

The screenshot displays a web application interface for the 'Data Integration Layer'. The top navigation bar is pink and includes the logo 'T . .', the tagline 'LIFE IS FOR SHARING.', the current page 'Data Integration Layer', and a 'Logout' link. Below the navigation bar, there are tabs for 'Projects', 'Connections', and 'Support'. The main content area shows the project name 'qM3hUAutoDIL14-16' and a sub-header 'Pipelines'. A message states: 'There is no pipelines in this project. Go to Builder to create one.' To the right, a sidebar provides project details: 'Project Title' (qM3hUAutoDIL14-16), 'Description*' (ProjectForAutomation), 'Tags' (Test_Pipeline), 'Project engine' (Spark), and 'Project actions' (Test run). The user's name 'shallendra parihar' is visible in the top right corner.
